

Behind Every  
Neglect &  
Deprivation..

.. there is an  
opportunity to  
nurture the  
cause **SURE-ly** for  
greater good

**Dyut Foundation in contribution to UN SDG 13 &  
15: Climate Action & Life on Land**

A 5 year old child at Onda, Bankura, is watering a tree that he and his father had planted on 5th June, 2023 (World Environment Day) with support from Dyut Foundation

**IMAGINE  
A FUTURE  
SURE-ly**

**THINK SURE-ly**

From Possibility to  
Certainty of a  
**Sustainable &  
Regenerative Future**

Every child of lesser gods is a talent & hence a possibility...

.. if groomed from pre-school stage with a guidance thats desgined SURE-ly

**Dyut towards SDG-4: Quality Education**

Via its flagship "Gurukul" Program, Dyut Foundation is working towards the balanced development of linguistic, analytical, spatial, personal and physical abilities of the youth with a sustainable goal of healthy societal development.

**OUR VISION AT DYUT**

To contribute in enabling a Sustainable & Regenerative Future for this Planet & its People

**Who Are We**

We are a group of professionals cum servant leaders with an unconditional desire to enable a sustainable ecosystem that can restore itself into a better state than it was originally found.

**What We Do**

**Leverage Our Experience in Corporate Governance by partnering with Non Profits to enable success in their Mission**

Proposal Build Up, Content Management, Brand Build Up & Positioning, Fundraising, Crowdfunding Campaigning, Public Relations (PR) Management, Project, Program, Portfolio Execution, Reporting, Governance & Consultancy, Social Media Promotion & Management

**Remain steadfast in our own SuRe Mission by executing projects towards UN Sustainable Development Goals (SDG)**

We design our SURE projects integrally and execute with commitment and professionalism. Our Project objectives are designed and mapped with UN SDGs and we address the underlying root cause rather than just responding to external symptoms to ensure sustainability & regenerability

Dyut partnering with others to protect receding Sundarban coasts by large scale Mangrove Plantations

The loss of 110 sq. km. of mangroves in Sundarban, WB needs a remedial blueprint thats conceived SURE-ly.

**Dyut towards SDG-17: Partnerships for the Goals**

Dyut is in partnerships with local organizations of international repute to consult and design on the plantation layout and strategy along with choice of the right mangrove variants to promote a sustainable and regenerative future of the inhabitants of Sundarban islands who are climate refugees and remain ever helpless due to their inherent geographic vulnerability
